PROFESSIONAL SUMMARY

Year 2 Diploma in Applied AI & Analytics (DAAA) student at Nanyang Polytechnic with hands-on experience in software development, data analytics, database design, UI/UX and digital marketing. Experienced in developing web applications using Python, Flask, SQLite, HTML, CSS and Bootstrap, as well as working with React, Node.js, PostgreSQL, KNIME and SAS Viya. Comfortable working in team projects and taking ownership of individual features, from development and testing to documentation. Also experienced in creating and editing social media content and marketing videos for a business.

EDUCATION

Diploma in Applied AI & Analytics (DAAA)
Nanyang Polytechnic, Singapore | 2025–2028

Relevant areas:

* Software and web application development
* Data analytics and predictive modelling
* Database design and SQL
* UI/UX design
* Data wrangling and visualisation

GCE O-Level and N-Level
St. Margaret’s Secondary School, Singapore | 2020–2024

PROJECT EXPERIENCE

EFAR Payroll Automation System

Group Project — NYP SCCCI AI Challenge
React (Vite), Node.js/Express, PostgreSQL, Docker

* Contributed to a full-stack payroll automation system designed to support an SME payroll workflow across roster synchronisation, validation, calculation, approval and payment.
* Independently designed and developed the Payroll Approval Module (UC-004) for manager review and approval decisions.
* Implemented server-side validation for mandatory rejection comments, duplicate approval prevention and blocking approval when payroll calculations were incomplete.
* Developed RESTful API endpoints and audit-logged approval history to support traceability of payroll decisions.
* Wrote unit tests for core business logic and documented feature use cases, API contracts and database schema.

Predictive Analysis of Gym Member Calorie Expenditure

IT2214 — Predictive Analysis and Forecasting, NYP
KNIME, SAS Viya, SAS Visual Analytics/Visual Statistics

* Performed end-to-end data analysis on approximately 4,800 exercise records to identify factors influencing calorie expenditure.
* Cleaned and transformed data using KNIME, including duplicate detection, outlier analysis and categorical data encoding.
* Identified and resolved duplicate records, reducing the dataset from 4,865 rows to 973 unique records.
* Built and evaluated Linear Regression, Decision Tree and Random Forest models in SAS Viya using a 70/30 train-validation split.
* Compared model performance using ASE and R-Square and applied backward variable selection.
* Final Linear Regression model achieved an R-Square of 0.98 with four significant predictors.
* Translated analytical findings into practical recommendations and presented the results using SAS Viya.

WhatsUp App — WhatsApp FAQ Knowledge Base Management System

Group Project — 2026
Python, Flask, SQLite, HTML, CSS, Bootstrap, Jinja2

* Developed the FAQ Knowledge Base Management component of a web application designed to help businesses manage repetitive WhatsApp sales enquiries.
* Implemented FAQ creation, editing and deletion using Flask and SQLite.
* Developed FAQ List and Category Workspace features with search and filtering functions.
* Designed an analytics dashboard with KPI cards to display FAQ statistics and system insights.
* Connected frontend interfaces with backend routes and database operations.

Data Wrangling and Analysis

IT2212 — Data Wrangling, NYP
KNIME

* Merged and cleaned customer datasets using KNIME and identified data quality issues for analysis.
* Corrected invalid values and data types, performed data transformations and prepared analysis-ready data.
* Applied data anonymisation techniques, including masking sensitive identifiers and removing unnecessary personal information.
* Created charts to analyse customer spending, income categories and purchase frequency.

Nirvana Mobile UX Transformation

2025
Figma, UI/UX Design

* Conducted user journey mapping to understand the user experience and identify areas for improvement.
* Prioritised features using the MoSCoW framework.
* Designed an interactive mobile prototype using Figma.
* Applied user-centred design principles to improve usability and overall user experience.

CERTIFICATIONS

* AI Fluency: Framework & Foundations — Anthropic
* AI FOR INDUSTRY® LITERACY IN AI — AI Singapore | August 2026
* KNIME Certification: L1 Examination — KNIME | July 2026 | 87% (Passed)
* Web Development Fundamentals — IBM | August 2025
* User Experience Design Fundamentals — IBM | August 2025

TECHNICAL SKILLS

Programming & Development:
Python, Java, JavaScript, Data Structures & Algorithms, Full-Stack Development, Frontend Development, Backend Development

Web Development:
Flask, React, Node.js/Express, HTML, CSS, Bootstrap, Jinja2, REST APIs

Data Analytics & AI:
SAS Viya, SAS Visual Analytics, SAS Model Studio, KNIME, NumPy, Pandas, Jupyter Notebook, Anaconda

Database:
SQLite, PostgreSQL, SQL, MySQL Workbench

Development & Design Tools:
Git, GitHub, Visual Studio Code, Figma, Canva, Adobe Photoshop

Other:
Data Cleaning, Data Wrangling, Predictive Modelling, Data Visualisation, UI/UX Design

Hackathon/Achievement

Participant — NYP X AWS Hackathon

• Collaborated in a team to develop and present a solution within a time-constrained challenge.

WORK EXPERIENCE

Digital Marketing & Content Assistant — Farah Boutiques

Singapore

* Managed social media content for Farah Boutiques by creating, editing and posting promotional videos, product content and marketing materials.
* Planned and wrote my own script for a marketing video, presented the video myself, and independently edited it before publishing.
* Created marketing content that reached a large audience and helped attract new customers to the boutique.
* Regularly edited and posted videos and promotional content on the Farah Boutiques social media page to increase online reach and engagement.
* Created promotional visuals and digital marketing materials using Canva and Adobe Photoshop.
* Developed social media captions and content for new arrivals, products and promotions.

LEADERSHIP & ACTIVITIES

SIT Club — Subcommittee Member
Photography Club — Member

KEY STRENGTHS

* Problem-solving

* Teamwork and collaboration
* Communication
* Attention to detail
* Time management
* Willingness to learn
* Content creation and presentation
